

roam wild

with pocket power for your Netbook

minigorilla is the portable charger to keep your netbook going for hours ... and hours. Having been specifically designed to work with the latest netbooks, this rechargeable mini charger also provides instant power to devices via the USB port (5.5v) and a number of other digital products including e-readers via the DC OUT socket.

Compatible with:

Most Netbooks, cell phones, digital cameras, camcorders, game consoles, GPS Navigators, iPod players, MP3/MP4 players and many more.

Safety features:

- Voltage limitation protection
- Current limitation protection
- Short circuit protection
- Anti-discharge protection
- Over-charging protection

The minigorilla can be charged from the AC/mains wall socket as well as the sun using the solargorilla (not included, visit www.powertraveller.com for details).

Output capacity:

- 5v: 6000mAh
- 8.4v: 4000mAh
- 9.5v: 3500mAh
- 10.5v: 3200mAh
- 12v: 2800mAh
- 19v: 2000mAh
