In-Car DAB Digital Radio with FM Transmitter

**WHAT HI-FI?**  
SOUND AND VISION

PURE Highway  
March 08

**DAB** digital radio **FM**

Highway is a unique, easy to fit in-car DAB digital radio that also enables you to listen to your iPod/MP3 player.

Powered from the in-car power socket and easily attached to your windscreen with a removable flexible mount (just like sat nav) Highway receives DAB stations and transmits them to your car radio on a free FM frequency. Simply tune your car radio to the FM frequency shown on Highway's display to listen to DAB or your iPod/MP3 player.

DAB digital radio brings you more stations including BBC 7, BBC Five Live Sports Extra and Planet Rock. National AM stations such as talkSPORT, Virgin and BBC Five Live are also broadcast in clear digital-quality audio.

Highway is packed with great, easy-to-use features such as ReVu™ to pause and skip back through live DAB radio, quickSCAN to find free FM transmission frequencies, and 4 FM transmission presets (synchronize these with your car radio's FM presets to make avoiding interference a breeze). You can even take Highway from the car when your journey's over and carry on listening using headphones\*.

Whether you want to enjoy the digital stations in-car that you do at home, listen to your iPod/MP3 player on the move, or just discover DAB, Highway brings a lot more entertainment to your journey.

\* headphones not included.

Easy to install – Highway transmits DAB digital radio to your car stereo via FM

quickSCAN finds the next available free FM frequency

Listen to your iPod or MP3 player through your car stereo

Pause and rewind live DAB radio
